## SUMMARY

Senior Frontend Engineer with 6+ years building scalable, high-performance web applications for enterprise and product companies including Pearson, EPAM and Silk Road Professionals. Specialised in React, Next.js and TypeScript, with recent focus on AI-integrated product features and enterprise system integration across Salesforce and ActivePieces. Experience on platforms serving 10,000-20,000+ concurrent users.

## EXPERIENCE

### Forward Deployed Engineer - Silk Road Professionals

Jul 2026 - Present | Fergana, Uzbekistan

- Ship AI-integrated B2B enterprise software for international clients on Next.js, React, C# and Python, delivering in two-week sprints.
- Modernise legacy client systems and build Salesforce and ActivePieces integrations that remove manual data entry between business systems.
- Work directly with client stakeholders to scope requirements and deploy solutions into their own environments.

### Software Engineer - Pearson

Jul 2023 - Jan 2026 | Contract | Remote

- Built and optimised React and Next.js applications for enterprise e-commerce platforms serving 20,000+ concurrent users.
- Delivered BigCommerce storefronts in JavaScript and Handlebars for educational products sold globally.
- Built reusable, responsive React component libraries shared across multiple storefronts.
- Worked directly with stakeholders to turn business requirements into technical estimates and delivery scope.

### React Software Engineer - Codemotion Ninjas

Feb 2022 - Jul 2023 | Kyiv, Ukraine - Remote

- Designed and shipped scalable UI architectures in React, Vue and TypeScript for FinTech and logistics startups.
- Translated complex design requirements into performant components, cutting duplicated UI code through a shared component layer.
- Integrated REST APIs with backend teams and reworked client-side data handling to remove redundant network calls.
- Ran technical interviews and supported junior developers on React and Redux.

### Frontend Developer - EPAM Systems (client: Thomson Reuters)

Jun 2021 - Jan 2022 | Jizzakh, Uzbekistan - Remote

- Developed React and TypeScript features for high-traffic enterprise platforms serving 10,000+ concurrent users.
- Supported delivery infrastructure handling 2TB+ of CDN traffic and 1,000+ marketing campaigns.
- Mentored junior engineers through the EPAM lab programme and ran technical interviews for frontend candidates.

### Full-stack Developer - Alitech Website Solutions

Aug 2019 - May 2021 | Jizzakh, Uzbekistan

- Built full-stack applications in React, Node.js, Express and MongoDB, including REST API design and rollout.
- Integrated third-party services including real-time tracking and mapping providers.
- Owned operational troubleshooting and performance optimisation for live client systems.

### Frontend Developer - Alitech Website Solutions

Jan 2018 - Jul 2019 | Part-time | Jizzakh, Uzbekistan

- Built React and TypeScript UI components for a high-traffic consumer finance platform.
- Implemented role-based authorisation, autopay and KYC verification flows.
- Wrote unit tests and maintained application stability across releases.

## SKILLS

**Frontend:** React, Next.js, TypeScript, JavaScript, Redux, Tailwind CSS, MUI

**Backend:** Node.js, Express, REST APIs, GraphQL, Python, C#

**AI integration:** LLM integration, Anthropic API, AI-assisted features, Prompt engineering

**Data & integrations:** MongoDB, SQL, Firebase, Salesforce, ActivePieces, BigCommerce

**Tooling & practices:** CI/CD, Webpack, Vite, Jest, Performance optimisation, Agile / Scrum

## SELECTED PROJECTS

**WineChain - Frontend lead**
Premium wine marketplace with on-chain provenance, secure custody and worldwide trading of digital wine twins. Led the frontend build. React, Next.js, TypeScript, Node.js.
winechain.co

**AI-Lean - Frontend engineer**
AI-powered SaaS that compresses the self-storage lien-to-auction process from weeks of manual work into a single guided workflow. Built the end-to-end UI. React, Next.js, TypeScript, Node.js.
home.ai-lean.com

**Mon Français - Creator**
AI-assisted French learning app: 63 grammar topics, 500+ vocabulary entries and speaking practice with feedback via the Anthropic API. Astro, React, TypeScript.
ahmadjon.uz/french

## EDUCATION

**BSc in Radio Devices and Networks**
Jizzakh Polytechnic Institute | 2018 - 2022

## LEADERSHIP & MENTORSHIP

- Mentored junior engineers and ran technical interviews at EPAM and Codemotion Ninjas.
- Mentor at the EPAM lab programme - supported onboarding engineers.
- Volunteer Frontend Mentor at IT Park Jizzakh (2020-2021).

## ADDITIONAL

**Languages:** English (advanced), French, Russian (elementary)

**Certifications:** JavaScript: Best Practices for Functions and Classes; Node.js: Microservices; React Native CRM Application Development.
